SUMMARY

React developer passionate about crafting dynamic and responsive web applications. With a strong foundation in frontend technologies and a keen eye for user-centric design, I thrive on translating complex concepts into elegant and intuitive user experiences. Collaborative and adaptable, I enjoy working within interdisciplinary teams to deliver high-quality solutions that drive user engagement and business growth.

SKILLS

- React.js
- Javascript
- HTML
- CSS
- Redux & Redux Toolkit
- Sass
- Bootstrap
- Tailwind

WORK EXPERIENCE

Triumph Education and Publishing

Frontend developer • 09/2022 - Present

Creating a Dynamic Website from Scratch using React.js :-

- Developed a dynamic and responsive website from scratch using React.js.
- Integrated with various data sources and APIs to fetch and display real-time content, enhancing the website's functionality
- Implemented Redux Toolkit and Thunk middleware for state management and asynchronous API calls.
- Collaborated with marketing and analytics teams to define and implement event tracking requirements.

Technologies Used: React.js, Javascript, CSS3, HTML5, Tailwind, Redux toolkit, SASS, Bootstrap, Thunk, Axios, Github
